PROFILE SUMMARY

Aspiring Java developer with strong knowledge in Java, object-oriented programming, and full stack development. Passionate about building scalable backend systems and responsive frontend applications using modern technologies. Interested in solving real-world problems through efficient and maintainable software solutions.

Key Components

Programming: Java, JavaScript, C, SQL

Frontend: React.js, HTML, CSS, Bootstrap

Backend: Spring Boot, Node.js, Express.js

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS, Docker, Jenkins, CI/CD

Tools: Git, GitHub, Postman, Linux, Maven

Core Concepts: OOP, REST APIs, Data Structures, Algorithms, MVC Architecture

Team Collaboration: Worked effectively in team environments to achieve shared goals

Communication: Strong verbal and written communication skills

Problem-Solving: Ability to debug, analyze issues, and implement practical solutions

PROFESSIONAL PROJECTS

Developer Dashboard | React, Spring Boot, PostgreSQL, AWS

- Built an AI-driven career platform to analyze resumes and developer profiles.
- Integrated AI services for code reviews, career insights, and recommendations.
- Developed a secure full-stack dashboard using React, Spring Boot, and PostgreSQL.
- Automated deployment workflows using Docker, AWS, and CI/CD pipelines

AI-Based Resume Analyzer

- Built a Java-based resume analysis system to process and unstructured resume data efficiently.
- Applied OOP principles and exception handling to design modular and reliable backend logic.
- Developed REST APIs for extracting skills, education, and experience details from resumes.
- Integrated PostgreSQL for data storage and tested APIs using Postman.
- Collaborated using Git & GitHub, contributing to feature development and debugging.

Quiz Application

- Built a Quiz Application using Java, Spring Boot, PostgreSQL, HTML, CSS, and JavaScript.
 - Developed RESTful APIs for quiz management, user participation, and score tracking.
 - Implemented automated answer evaluation and instant result generation.
 - Containerized and deployed the application using Docker with cloud-based deployment support.
-

EDUCATION

Bachelor of Engineering

Majors: Information Technology

Sri Shakthi Institution of Engineering & Technology

CERTIFICATIONS

Basics in Java- Hacker Rank

Full Stack Development- Udemy

EXTRACURRICULAR ACTIVITIES

Debate Speaker:

School level debate speaker

Athletics

State level Basketball Player

State level High Jumper
